OUR RECIPE FOR SUCCESS. THE SMART REDUCTION TO THE TO THE ESSENTIALS: QUALITY.

BRILLIANT TOOLS does not need a large distribution structure and extravagant marketing activities. Our target group is happy to do without. Instead, our customers buy at a favorable price, without having to lower their quality expectations.

PRODUCTION: INTERNATIONAL QUALITY: MADE IN GERMANY

Our tools are at home all over the world. Because in many countries very good tool manufacturers produce with tradition. Real professionals, from whom we manufacture with a clear conscience.

Function and quality are always guaranteed "made in Germany" - you can rely on that.

OUR LOGISTICS: MIGHTY OUR PACE: RECORD-BREAKING

BRILLIANT TOOLS benefits from day one from the logistics of KS TOOLS in Heusenstamm. Our Tools are within a very short time used all over the world, for this we rely on the latest logistic technology.

RATCHEN HEADS

FOUR-EDGED REPLUGGING

By simply replugging the square edge, the switch from right to left suit takes place. The torque wrenches can be converted to a different drive size with the help of the selection.

ROBUST RATCHET HEAD

Robust ratchet mechanism for left and right suit

RATCHET HEAD

A very robust ratchet mechanism for the right and left suit is installed in the polished ratchet head. Changing the direction of rotation is done by simply replugging the drive square edge with the help of the push-button quick release function on the Raschenkopf. A sliding roller buckling mechanism inside the key guarantees maximum accuracy and long service life. The achievement of the desired torque is automatically made clear by an audible and tactile signal.

WITH PRECISION TO PERFECTION.

ACCURACY OF

±3 %

of scale value
Repeatstart fromle and precise with at least 5,000 load changes

SCALE WITH MAGNIFYING GLASS:

Under a generously dimensioned viewing window hides an easy-to-read scale in Nm and Lbf ft division, which allows a particularly precise setting of the desired torque value. In order to guarantee an optimal and simplified reading, a strong magnifying glass is installed in the viewing window.

+/- 3%

serial number:

An irrevocstart fromle, individual serial number is applied to all torque wrenches, which is used for unique product identification.

Micrometer scale:

With the white micrometer scale ring, a fine adjustment can now also be made. The viewing window is generously dimensioned and guarantees an optimal and simplified reading of the micrometer value thanks to the integrated magnifying glass function. Depending on the model, divisions of 1/0.5/0.25/0.1 or 0.025 Nm can be precisely adjusted.

2K HANDLE

The new handy and ergonomic two-component handle guarantees safe and fatigue-free working, while the softer component also prevents the hand start from slipping and ensures maximum safety.

END OF THE HANDLE:

By simply pulling out and pushing in the slide-in button at the end of the handle, using the ergonomic finger recesses, the desired torque can be set and fixed. A blue ring on the slide-in button indicates that the setting of the key still needs to be fixed or prevents accidental adjustment of the key during use.

10-YEAR WARRANTY IMPORTANT INFORMATION

Please keep all documents in a safe place, as they constitute part of your purchase agreement.

As the original purchaser of our branded products, you receive a 10-year warranty on the material and surface condition, functional reliability and high standard of workmanship of all products under our BRILLIANT TOOLS brand in accordance with the quality and test specifications valid at the time of delivery.

The warranty includes the statutory 2-year warranty, only applies to new goods and is non-transferable.

The warranty does not affect statutory warranty claims, such as those concerning supplementary performance, rescission or compensation for damages.

Warranty terms and conditions.

The warranty shall be fulfilled through, at the warrantor's choice, repair or subsequent delivery and shall not be suspended nor interrupted through the performance of services, i.e. the warranty shall end ten years after the delivery date.

Proper transportation, assembly, connection and use by authorised specialist staff are a mandatory requirement for the warranty to be valid.

The relevant installation, safety and operating instructions as well as the enclosed assembly instructions apply to all electronic components.

The warranty does not cover ten years of a new condition.

No liability is accepted for damage of any kind resulting from collection by the customer, overloading, operating errors or changes to the delivery state or consumables.

Products used for demonstration purposes are also excluded from the warranty, as they no longer conform to new condition due to use and demonstration effects. The statutory two-year warranty applies and we recommend documenting signs of wear before the transfer of risk.

Material defects are generally repaired by the trade partner and only on presentation of the purchase agreement.

The following are not covered by the warranty:

- ❖ Normal and natural signs of wear
- ❖ Wear caused by excessive or improper use
- ❖ Damage that occurs through normal and natural wear during use by the purchaser
- ❖ Improper modifications by unauthorised persons
- ❖ Improper exposure to heat, moisture, liquids or care products
- ❖ Damage caused by pointed, sharp, hot or wet objects
- ❖ Environmental factors such as extreme dryness, humidity, light or temperature
- ❖ Intentional destruction, misuse, overloading or accidental damage
- ❖ Damage and soiling caused by heat sources or weather
- ❖ Discolouration caused by medication ingredients (toxic reaction)
- ❖ Any changes caused by substances containing acid, solvents or alcohol
- ❖ Unsuitable cleaning, repair or improvement attempts
- ❖ Moisture damage caused by standing water or condensation not being removed
- ❖ Characteristics typical of the product that do not constitute material defects
